

All About Squirrels!

Squirrels live in a nest in a tree.

Squirrels can be:

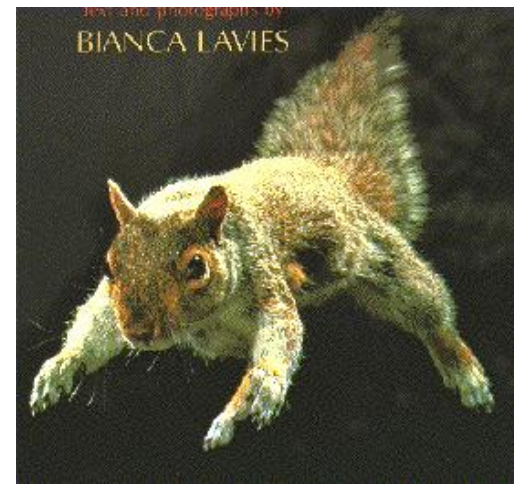

Mom squirrel
carries the baby
in her mouth.

Squirrels love to scamper and play!

*Squirrels jump
from tree to tree.*

Sharp teeth help them crack open nuts.

Squirrels like to eat

berries

bark,

and

nuts

*They hide nuts
in the fall and
find them to eat later
in winter.*

Squirrels leave footprints in the snow.

Squirrels grow warm fur coats to keep them warm. They use their tail like a blanket.
